

ACASEA 2024

11th Academic Congress of Asian Shoulder and Elbow Association

Oct. 3rd, 2024 (Thursday)

Day 1 Agenda

A Front Hall (2F) Five Contemplations Hall [禮敬大廳 2 樓五觀堂]

B The Fo Guang Building (9F) International Conference Hall [佛光樓 9 樓國際會議廳]

Time	Agenda	Time	Agenda
08:00~16:00	Registration	08:00~16:00	Registration
09:00-09:48	Keynote Speech <1> Moderator: Philippe Collin, Joo-Han Oh, Chian-Her Lee	09:00-09:48	Keynote Speech <2> Moderator: Denny Lie, Yong Girl Rhee, Hung-maan Lee
	09:00-09:12 Translational Research Biologic augmentation of rotator cuff healing Joo-Han Oh		09:00-09:12 The Strategic Use of Supermicrosurgical Lymphaticovenous Anastomosis for Treating Upper Limb Lymphedema Johnson Chia-Shen Yang
	09:12-09:24 Utilization and Outcomes of Computer Navigation in Total Shoulder Arthroplasty Craig Ball		09:12-09:24 Selective approach to management of Proximal Humerus Fractures Sanjay Desai
	09:24-09:36 The reverse shoulders wear testing method Hani Haider		09:24-09:36 My Journey for Large to Massive Rotator Cuff Tear Yong Girl Rhee
	09:36-09:48 Bio RSA, Why I have stoped Philippe Collin		09:36-09:48 Instability in Asia: are we that different? Development of Minor Bone Loss algorithm, approaches and techniques in stabilisation surgery Denny Lie
09:48-10:00	Discussion	09:48-09:55	Discussion
10:00-10:05	Coffee Break		
10:05-10:41	Keynote Speech <3> Moderator: Marc Hirner, Chih-Hwa Chen, Qing-Jie Yang	09:55-10:37	Keynote Speech <4> Moderator: Guoqing Cui, Ru-Yu Pan, Chih-Hung Chang
	10:05-10:17 The past, present, and future of Taiwan shoulder and elbow society Chih-Hwa Chen		09:55-10:05 Propagation mechanism of full-thickness rotator cuff tears: a simulation using finite element method Hiroataka Sano
	10:17-10:29 Put The Article in Reviewer's Shoes: Tips to Avoid Desk Rejection Feng-Sheng Wang		10:05-10:17 A Novel Arthroscopic Coracoid Transfer Procedure for Treatment of Recurrent Anterior Shoulder Instability with a Minimum 2-Year Follow-Up Guoqing Cui
	10:29-10:41 Towards the rapid generation of normative patient upper limb anatomy using artificial intelligence Marc Hirner		10:17-10:27 SLAP and biceps pulley lesions Ru-Yu Pan
			10:27-10:37 Early restoration of shoulder function in patients with the Grammont prosthesis compared to lateralized humeral design in reverse shoulder arthroplasty Sang-Jin Shin
10:41-10:50	Discussion	10:37-10:45	Discussion
10:50-11:00	Coffee Break	10:45-11:00	Coffee Break
11:00-12:00	Inauguration Ceremony [Venue: Front Hall (2F)]	11:00-12:00	Inauguration Ceremony [Venue: Front Hall (2F)]

Oct. 3rd, 2024 (Thursday)

Day 1 Agenda

12:00-13:30	Luncheon	12:00-13:30	Luncheon
13:30-14:30	EBM Meeting [Venue: Front Hall (3F)]	13:30-14:25	EBM Meeting [Venue: Front Hall (3F)]
	<p>Keynote Speech <5> Rotator Cuff Moderator: Ashish Gupta, Hsiao-Li Ma</p> <p>13:30-13:42 Regeneration of rotator cuff repair using biological materials and biomechanical device Hsiao-Li Ma</p> <p>13:42-13:54 Regeneration of rotator cuff repair using and biological augmentation Yoshiaki Itoigawa</p> <p>13:54-14:06 Basic Science of Rotator Cuff Healing: How Can We Improve It? In-Ho Jeon</p> <p>14:06-14:18 MRI-Based Reliability and Validity of Goutallier Classification for Grading Fatty Infiltration of the Rotator Cuff Across the Whole Scapula Ashish Gupta</p> <p>14:18-14:30 Paradigm shifts (1)Rotator cuff tear → avulsion (2)Supraspinatus/Infraspinatus muscles → Biceps muscle of the glenohumeral joint Ryuji Sashi</p> <p>14:30-14:40 Clinical and Radiological Outcomes of All-Arthroscopic Supraspinatus and Infraspinatus Muscle Advancement Procedure for Massive Retracted Rotator Cuff Tears including Pseudoparalytic Patients Ashish Gupta</p>		<p>Symposium <1> ESWT Moderator: Wolfgang Schaden, Yao-Chi Chuang</p> <p>13:30-13:45 Biological Effects of Extracorporeal Shockwaves Wolfgang Schaden</p> <p>13:45-13:55 ESWT as a Biological Support to Heal Rotator Cuff Tears Wolfgang Schaden</p> <p>13:55-14:05 ESWT application on non-union Jinyoung Jeong</p> <p>14:05-14:15 A Review of ESWT on Calcific Tendinitis in Kaohsiung Chang Gung Memorial Hospital. Jai-Hong Cheng</p> <p>14:15-14:25 Supplementary Effects of Extracorporeal Shockwave Therapy (ESWT) to Hyaluronic Acid (HA) Injection among Patients with Rotator Cuff Lesions without Complete Tear: a prospective double-blinded randomized study Shu-Jui Kuo</p>
13:30-14:30		13:45-14:25	
14:40-14:50	Discussion	14:25-14:40	Discussion
	<p>Keynote Speech <6> Arthroplasty Moderator: Hyun-Seok Song, Wei-Hsing Chih</p> <p>14:50-15:02 Augmented Reality in Reverse Shoulder Arthroplasty Ram Chidambaram</p> <p>15:02-15:14 Reverse Shoulder Arthroplasty with metallic augments to preserve bone and restore joint line in patients with glenoid bone loss Marc Hirner</p> <p>15:14-15:26 How to recover internal rotation in RTSA Philippe Collin</p> <p>15:26-15:38 Pitfalls of the computer-assisted shoulder arthroplasty Hyun-Seok Song</p>	14:40-14:50	Coffee Break
14:50-15:50		14:50-15:50	
			<p>ICL <1> Moderator: Yi-Cheng Chan, Craig Ball</p> <p>14:50-15:02 The history of rotator cuff repair Craig Ball</p> <p>15:02-15:14 Arthroscopic Bony Bankart Repair: Pearls and Pitfalls Hiroyuki Sugaya</p> <p>15:14-15:26 Impact of Comorbidities on Shoulder Arthroplasty Outcomes Daphne Ling</p> <p>15:26-15:38 My 10 tips for getting it perfect arthroscopic repairing large to massive rotator cuff tear Sang-Jin Shin</p>

Oct. 3rd, 2024 (Thursday)

Day 1 Agenda

14:50-15:50	15:38-15:50 Pre- & Post-operative evaluation for anatomic restoration in total shoulder arthroplasty Jinyoung Jeong	14:50-15:50	15:38-15:50 Clinical Shoulder Kinematics: from Lab-based Global Arc to Clinic-based markerless KINEXS system Denny Lie
15:50-16:05	Discussion	15:50-16:05	Discussion
16:05-16:10	Coffee Break	16:05-16:10	Coffee Break
16:10-17:00	ICL <2> RC Lesion Moderator: Teruhisa Mihata, Chao-Yu Chen	16:10-17:10	Invited Speeches <2> Instability Others Moderator: Jin-Young Park, Jonathan C. Ronquillo, En-Rung Chiang
	16:10-16:20 Biology and Biomechanics - How to balance both in RCT Repair Roshan Wade		16:10-16:20 This is how expose the glenoid Giovanni Di Giacomo
	16:20-16:30 Arthroscopic Superior capsular reconstruction [SCR]: AMC Experience for the last 10 years In-Ho Jeon		16:20-16:30 Time to return to play after arthroscopic elbow osteocapsular arthroplasty in professional and elite baseball players Jin-Young Park
	16:30-16:40 Biomechanical effects of SCR for reinforcement of rotator cuff repair in a degenerated reparable supraspinatus tendon tear model Teruhisa Mihata		16:30-16:40 Thoracic Outlet Syndrome in Overhead Athletes Tadanao Funakoshi
	16:40-16:50 Non-anatomic Reconstruction for Large to Massive Cuff Tear- Biceps Rerouting and Acromiograft Yang Soo Kim		16:40-16:50 Surgical treatment for traumatic anterior instability of the shoulder: modifications of surgical techniques to improve outcomes Yusuke Iwahori
	16:50-17:00 BICEPS SUPERIOR CAPSULAR RECONSTRUCTION FOR MASSIVE ROTATOR CUFF TEAR Deepthi N Reddy		16:50-17:00 Causes and effects of graft nonunion following coracoid transfer procedure for anterior shoulder instability Guoqing Cui
17:00-17:10	Discussion	17:10-17:20	Discussion
19:00-21:00	Presidential Dinner (Invited)	19:00-21:00	Presidential Dinner (Invited)

ACASEA 2024

11th Academic Congress of Asian Shoulder and Elbow Association

Oct. 3rd, 2024(Thursday)

Day 1 Agenda

C The Fo Guang Building (2F) Auditorium C [佛光樓 2 樓]

D The Fo Guang Building (2F) Auditorium D [佛光樓 2 樓]

Time	Paper no.	Agenda
08:00~16:00	Registration	
		Instability Moderator: Hao-Che Tang, Fa-Chuan Kuan
	OCA-001	09:00-009:06 A case of bilateral shoulder joint fusion for shoulder instability due to Ehlers-Danlos syndrome Hiroaki Tonami* , Kazutaka Takahashi , Sou Akemoto , Kenji Okamura
	OTA-002	09:07-09:12 The Classification and Treatment of Type V SLAP Lesions ChangYuan Gu* , Luning Sun , Hao Shu , Bing Yuan , Yao Huang , Lei Wang
09:00-09:30	OTA-003	09:13-09:18 Anterior mid portion capsular tear with Bankart lesion in Recurrent anterior shoulder dislocation: Outcome report and Bone defect evaluation Kun-Hui Chen , En Rung Chiang , Hsin-Yi Wang , Hsiao-Li Ma*
	OTA-004	09:19-09:24 Shoulder arthroscopic reduction anchor fixation technique for the treatment of Ideberg la glenoid fracture JiaJun Zhao* , Zhenhui Liu , Zhen Zhang , Tantan Zuo , Jie Yu , Dongxiao Fan , Zhiquan Hao , Yongjie Deng
	ORA-001	09:25-09:30 Establishment of a True En Face View in the Evaluation of Glenoid Morphology for Treatment of Traumatic Anterior Shoulder Instability Hailong Zhang , Chunyan Jiang*
09:30-09:45	Discussion	
09:45-10:27		Instability Moderator: Kun-Tsan Lee, Shih-Sheng Chang

Time	Paper no.	Agenda
08:00~16:00	Registration	
		Rotator Cuff Moderator: Sheng-Hui Lin, You-Hung Cheng
	OCB-001	09:00-009:06 The clinical and structural outcome of ASCR Hiroaki Moriyama* , Masafumi Gotoh , Hiroki Ohzono
	OTB-001	09:07-09:12 Arthroscopic rotator cuff repair combined with coracoplasty in the treatment of rotator cuff tear complicated with subcoracoid cyst Zhu Dai*
	OTB-002	09:13-09:18 Arthroscopic Patch Augmentation Using Acellular Human Dermal Allograft for Rotator Cuff Tears Sung Jun Park , Yong Girl Rhee* , Sung Min Rhee , Radhakrishna Kantanavar , In El Lee
09:00-09:36	OTB-003	09:19-09:24 Superior Capsule Reconstruction: Fascia Lata Autograft versus Acellular Dermal Allograft Jin Jung , Sung Min Rhee* , Yong Girl Rhee , Radhakrishna Kantanavar , Cheol Hwan Kim
	OTB-004	09:25-09:30 Usefulness of Needle scope in patients with incomplete rotator cuff tears Takashi Hayakawa , Nobuyuki Yamamoto*
	OTB-005	09:31-09:36 Clinical and Imaging Follow-up Results of Arthroscopic Repair of Rotator Cuff Using Forward Suturing Hook with Automated Threading Wei Huang , Hong Wang*
09:36-09:45	Discussion	
09:45-10:27		Rotator Cuff Moderator: Liang-Tseng Kuo, Jia-Lin Wu

Oct. 3rd, 2024(Thursday)

Day 1 Agenda

09:45-10:27	ORA-002	09:45-09:51 Arthroscopic Bristow procedure is superior to the arthroscopic Latarjet procedure in return to sports, but inferior in graft healing: a comparative study with 3.4-year followup Qingfa Song, Aofei Gao, Jucheng Bai, Zhenxing Shao*, Guoqing Cui	OTB-006	09:45-09:51 Clinical Outcomes of Massive Irreparable Rotator Cuff Tears Following Arthroscopic Superior Capsular Reconstruction Using a Teflon Felt Patch Kenji Okamura, Kazutaka Takahashi*	
	ORA-003	09:52-09:57 Characteristics of modified Putti-Platt procedure for recurrent anterior shoulder instability Norio Ishigaki*, Yukihiko Hata, Yuya Kotagiri, Hiromu Kawakami	OTB-007	09:52-09:57 Bucket Handle Rotator Cuff Tear Is A Poor Prognostic Factor After Rotator Cuff Repair - A Comparative Study with Propensity Score Matching - Kyu Ho Lee, Sheng Chen Han, Young Ki Min, Hyung Ki Cho, Dong Ho Lee, Hyeon Jang Jeong, Joo Han Oh*	
	ORA-004	09:58-10:03 The Effect of Remplissage Procedure on Shoulder Range-of-Motion in Filipinos Undergoing Bankart Repair for Anterior Shoulder Instability Katrina Ysabel R. Naraval*, Chauncey Kester L. Lim, Kristine R. Italia	OTB-009	09:58-10:03 Long-term outcomes of subacromial spacer ion for the treatment of irreparable massive rotator cuff tears Hyung Ki Cho, Hyeon Jang Jeong, Shengchen Han, Dong Ho Lee, Kyu Ho Lee1, Young Ki Min, Joo Han Oh*	
	ORA-005	10:04-10:09 Three-Dimensional Morphometric Analysis of Glenoid and Coracoid Process in an Australian Population Asma Salhi, James Nielsen, Luke Gilliland, Marine Launay, Jashint Maharaj*, Kenneth Cutbush, Ashish Gupta	OTB-010	10:04-10:09 Modified Rotator Cuff Healing Index (MRoHI) - Re-Validation Of RoHI And A Simple Scoring System Excluding Bone Mineral Density - Dong Ho Lee, Jieun Kwon, Hyung Ki Cho, Shengchen Han, Kyu Ho Lee, Young Ki Min, Joo Han Oh*	
	ORA-006	10:10-10:15 Clinical characteristics of three different types of posterior labral tears without glenohumeral instability based on magnetic resonance images and arthroscopic findings Sang-Jin Shin*, Ji Hyun Seo	ORB-002	10:10-10:15 Can suture bridge repair reinforced using a biceps rerouting technique reduce the re-tear rate of large-to-massive rotator cuff tears? Jin-Yong Park*, Keun-Bae Hong, Sun-Hwan Kwon	
	ORA-007	10:16-10:21 Clinical Outcomes of Arthroscopic Treatment of Traumatic Posterior Shoulder Instability Tomoyuki Matsuba*, Norimasa Takahashi, Keisuke Matsuki, Shota Hoshika, Tasuku Kiyuna, Hideki Kamijo, Tomoshige Tamaki, Ryo Haraguchi, Hayato Ryoki, Hiroyuki Sugaya	ORB-003	10:16-10:21 Which muscle is the external rotation compensator after superior capsular reconstruction? Nattakorn Mahasupachai, Atsushi Arino, Jun Kawakami, Nobuyuki Yamamoto*	
	ORA-008	10:22-10:27 Coracoid Bone Graft Osteolysis After Latarjet Procedure at Mid-Term Follow-Up Qihuang Qin, Dan Zhang, Siyi Guo, Yiming Zhu, Chunyan Jiang*			
	10:27-10:40	Discussion		10:22-10:40	Discussion
10:40-11:00	Coffee Break		10:40-11:00	Coffee Break	
11:00-12:00	Inauguration Ceremony [Venue: Front Hall]		11:00-12:00	Inauguration Ceremony [Venue: Front Hall]	
12:00-13:30	Luncheon		12:00-13:30	Luncheon	

Oct. 3rd, 2024(Thursday)

Day 1 Agenda

Instability Moderator: Po-Hua Huang, Fa-Chuan Kuan		Rotator Cuff Moderator: Tung-Fu Huang, Chen-Hao Chiang	
ORA-009	13:30-13:36 A Novel Large Animal Model of the Latarjet Procedure Qihuang Qin, Dan Zhang, Siyi Guo, Yiming Zhu, Chunyan Jiang*	ORB-004	13:30-13:36 Factors Affecting Retear Rate after Arthroscopic Rotator Cuff Repair of Small to Medium Tear Hiroki Huang Ohzono, Masafumi Gotoh*, Kazuki Nishida
ORA-010	13:37-13:42 The Evaluation of external rotation after arthroscopic Bankart repair with rotator interval closure Isaku Saku*, Hideaki Asai	ORB-005	13:37-13:42 Clinical and Imaging Follow-up Results of Arthroscopic Repair of Subscapularis Using a Sewing Machine-like Continuous Suture Technique Wei Huang, Hong Wang*
ORA-011	13:43-13:48 Morphological changes of glenoid after arthroscopic Bankart repair with small bone column grafting Kazuhiko Kikugawa*, Yasuhiko Sumimoto, Chikara Watanabe	ORB-006	13:43-13:48 Clinical and Imaging Follow-up Results of Modified single working-portal technique using percutaneous spinal needle suture passing in arthroscopic subscapularis repair Wei Huang, Hong Wang*
ORA-012	13:49-13:54 The effect of scapular position on anterior and posterior glenohumeral translations in a cadaveric model of Bankart lesions Hiroaki Ishikawa*, Heath B. Henninger, Jared L. Zitnay, Robert Z. Tashjian, Nobuyuki Yamamoto, Peter N. Chalmers	ORB-008	13:49-13:54 Glycyrrhizin Suppresses Fatty Infiltration following Rotator Cuff Tear in Mice Takumi Nakamura*, Noboru Matsumura, Ryogo Furuhashi, Takayuki Seto, Hideyuki Shirasawa, Osahiko Tsuji, Masaya Nakamura
13:30-14:14	ORL-007 13:55-14:00 Importance of foot function in baseball pitching: the relationship between foot function and players with disabled throwing shoulder/elbow Hideaki Nagamoto*, Takumi Okunuki, Kazuki Wakamiya, Toshihiro Maemichi, Daisuke Kurokawa, Takayuki Muraki, Hiroyuki Takahashi, Nobuyuki Yamamoto, Toshimi Aizawa, Tsukasa Kumai	13:30-14:07	ORB-010 13:55-14:00 The clinical outcomes and repair integrity of Superior Capsule Reconstruction for Reinforcement of Arthroscopic Rotator Cuff Repair (SCR-R) Kunimoto Fukunishi*, Akihiro Hasegawa
	ORL-008 14:01-14:07 Does foot function affect pitching motion? Inconsistency of pitching motion among players with impaired foot function Hideaki Nagamoto*, Takumi Okunuki, Kazuki Wakamiya, Toshihiro Maemichi, Daisuke Kurokawa, Takayuki Muraki, Hiroyuki Takahashi, Nobuyuki Yamamoto, Toshimi Aizawa, Tsukasa Kumai		ORB-011 14:01-14:07 The effect of subscapularis tendon tears on the postoperative outcomes of massive rotator cuff tears Hironori Kawakami*, Yukihiko Hata, Norio Ishigaki, Koichi Nakamura, Yuya Kotagiri
	ORL-010 14:08-14:14 Common Neural Input to Deltoid Segments: Preliminary Findings on Muscle Control Wolbert van der Hoorn, Jashint Maharaj*, Francois Hug, Ella Hill, Frederique Dupuis, Ashish Gupta, Kenneth Cutbush, Graham Kerr, Kylie Tucker		
14:15-14:25	Discussion	14:08-14:25	Discussion
14:25-15:07	Trauma Moderator: Ying-Chao Chou, Yung-Cheng Chiu	14:25-15:07	Rotator Cuff Moderator: En-Rung Chiang, Sheng-Hui Lin

Oct. 3rd, 2024(Thursday)

Day 1 Agenda

	<p>OCC-001 14:25-14:31 Hydrodissection of the Eighth Cervical Nerve Root for Scapular Girdle Pain Associated with Non of the First Rib Stress Fracture: A Case Report Toru Omodani*</p> <p>OCC-002 14:32-14:37 A novel surgical approach for the surgical treatment of anterior glenoid rim fracture (Ideberg Type Ia): Anteroinferior axillary approach Yukitaka Fujisawa*, Akihiko Hasegawa, Mutsumi Ohue, Teruhisa Mihata</p> <p>OTC-001 14:38-14:43 Nonosteoporotic Complex Proximal Humeral Fractures Treated with Locking Plates: A Minimum 10-year Long-term Follow-up Study Zhijun Zhang, Chunyan Jiang*</p> <p>OTC-002 14:44-14:49 Outcomes in Dubberly Type B Capitellum Fracture Management: A Case Series Study Hao Wei Chang, Chin Jung Hsu*</p> <p>OTC-003 14:50-14:55 A New Surgery Algorithm for Decision-making Approaches of Glenoid Fracture I-Hao Lin, Jin-Ping Lin, Chien-Ming Chen, Hao-Wei Chang, Chin-Jung Hsu*</p> <p>OTC-004 14:56-15:01 Arthroscopic reduction and transosseous suture fixation of ulna coronoid process fractures Wei Huang, Hong Wang*</p> <p>ORL-024 15:02-15:07 Short-term outcomes of arthroscopic first rib resection for thoracic outlet syndrome Hisao Shimokobe, Yasuhiro Mitsui*</p>	<p>14:25-15:07</p>	<p>ORB-012 14:25-14:31 A Novel Quantitative Method to Assess Fat Content of the Supraspinatus Based on MRI T1 Sequence Can Predict Retear Preoperatively in Large to Massive-Sized Tears Jianhao Xie, Meng Zhou, Zhe Guo, Yiming Zhu, Chunyan Jiang*</p> <p>ORB-013 14:32-14:37 Effect of improvement of supraspinatus muscle atrophy on long-term postoperative results Yuya Kotagiri*, Yukihiko Hata, Norio Ishigaki, Kouichi Nakamura, Hiromu Kawakami</p> <p>ORB-014 14:38-14:43 Clinical outcomes associated with the synergistic potential of the PRP and BMAC in the repair of large-sized rotator cuff tears Kyu-Cheol Noh*, Yong-Tae Kim, Ji-Ung Oh, Vivek Kumar Morya</p> <p>ORB-015 14:44-14:49 Evaluation of the Molecular Interactions Between Hypoxia-Inducible Factor and Oxidative Stress in the Context of Tendon Degeneration Ji-Ung Oh, Yong-Tae Kim, Vivek Kumar Morya, Kyu-Cheol Noh*</p> <p>ORB-016 14:50-14:55 The addition of an erector spinae plane catheter block following an interscalene nerve block significantly enhances pain relief and reduces opioid consumption after arthroscopic rotator cuff repair Wei-Kuo Hsu, Shu-Cheng Liu, Hao-Chun Chuang, Chi-Hsiu Wang, Fa-Chuan Kuan, Kai-Lan Hsu, Wei-Ren Su, Chih-Kai Hong*</p> <p>ORB-017 14:56-15:01 Joint-preserving treatment for Global Irreparable Rotator Cuff Tears: Combined Anterior Latissimus Dorsi and Teres Major Tendon Transfer Bo Taek Kim, Jung Gon Kim, Chang Hee Baek*</p> <p>ORB-018 15:02-15:07 Mid-term Outcome of Arthroscopic-Assisted Lower Trapezius Transfer Using an Achilles Allograft in Treatment of Posterior Superior Irreparable Rotator Cuff Tear. Running title: Mid-term outcome analysis of aLTT transfer Bo Taek Kim, Jung Gon Kim, Chang Hee Baek*</p>
--	---	--------------------	--

Oct. 3rd, 2024(Thursday)

Day 1 Agenda

15:07-15:20		Discussion	15:07-15:20		Discussion
15:20-15:25		Coffee Break	15:20-15:25		Coffee Break
		Trauma Moderator: Ching-Hou Ma, Kun-Hui Chen			Rotator Cuff Moderator: Chung-Hsun Chang, Wei-Ren Chen
15:25-15:55	ORL-006	15:25-15:31 Effect of Topical Tranexamic Acid (TXA) on Arthroscopic Elbow Arthrolysis: A Double-Blind Randomized Controlled Trial Meng Zhou, Hailong Zhang, Yi Lu*	15:25-15:55	ORB-019	15:25-15:31 Superior Capsular Reconstruction Versus Middle Trapezius Tendon Transfer for Isolated Irreparable Supraspinatus Tendon Tears: Static Versus Dynamic Reconstruction Jung Gon Kim, Bo Taek Kim, Chang Hee Baek*
	ORB-021	15:32-15:37 Rotator Cuff Tear with Labral Lesion can be Treated by Only Arthroscopic Rotator Cuff Repair in Patients Older Than 60 Years after Primary Traumatic Shoulder Dislocation: A matched Comparative Study Chen-Hao Chiang*, Wei-Hsing Chih		ORB-020	15:32-15:37 Clinical outcomes following repair of large retracted anterior rotator cuff tears: Augmentation with human dermal allograft versus biceps tendon autograft Sang-Jin Shin*, Ji Hyun Seo
	ORC-006	15:38-15:43 Coracoclavicular fixation using metallic versus all-suture anchors: A biomechanical study Chih-Kai Hong, Fa-Chuan Kuan, Kai-Lan Hsu, Yueh Chen, Chen-Hao Chiang, Wei-Ren Su*		ORB-022	15:38-15:43 Rate of shoulder arthroplasty after rotator cuff repair Thomas Hoffman*, Anthony Maher
	ORC-007	15:44-15:49 Clinical results of intramedullary nail for proximal humeral fractures in over 80 years of age Hideaki Asai*, Isaku Saku, Yuuichi Nagase, Kazuya Tamai, Sakae Tanaka		ORB-023	15:44-15:49 Adaptive mechanisms of shoulder movement in different types of massive rotator cuff tear: a positron emission tomography study Hao-Chun Chuang, Nan-Chin Chiu, Zhao-Wei Liu, Kai-Lan Hsu, Fa-Chuan Kuan, Chih-Kai Hong, Wei-Ren Su*
	ORC-008	15:50-15:55 Clinical Outcomes of Single Versus Double Plating in Distal-Third Humeral Fractures Caused by Arm Wrestling: A Retrospective Analysis Chin-Ping Lin, Jui-Ting Mao, Hao-Wei Chang, Tsung-Li Lin, I-Hao Lin, Chia-Yu Lin, Chin-Jung Hsu*		ORB-024	15:50-15:55 Antioxidants Reduce Oxidative Stress and Accelerate Tendon-to-Bone Healing after Rotator Cuff Repair Hirohisa Uehara*, Yoshiaki Itoigawa, Daichi Morikawa, Hironori Tsurukami, Fumitoshi Hatae, Muneaki Ishijima
15:56-16:20		Discussion	15:56-16:10		Discussion
16:20-16:50		Arthroplasty Moderator: Pei-Hung Shen, Chih-Hao Chiu	16:10-16:46		Rotator Cuff Moderator: Kun-Tsan Lee, You-Hung Cheng

Oct. 3rd, 2024(Thursday)

Day 1 Agenda

16:20-16:50	OTD-001	16:20-16:26 Reverse Total Shoulder Arthroplasty with Combined Latissimus Dorsi and Teres Major Transfer in Massive Irreparable Rotator Cuff Tear with Loss of Active External Rotation: Circumferential Suturing Technique Sung Jun Park, Yong Girl Rhee*, Sung Min Rhee, Jong Ung Lee, Radhakrishna Kantanavar, Gyu Hwan Lee	16:10-16:46	ORB-025	16:10-16:16 Donor site morbidity does not affect patient satisfaction after arthroscopic superior capsule reconstruction using fascia lata autograft Akihiko Hasegawa*, Akihiro Uchida, Yusuke Noguchi, Kunimoto Fukunishi, Shuhei Otsuki, Teruhisa Mihata
	OTD-002	16:27-16:32 Outcomes of Nonoperative Treatment for Acromial Fractures Following Reverse Shoulder arthroplasty – A Multicenter Prognostic study Jin Jung, Yong Girl Rhee, Radhakrishna Kantanavar, DNB, Chang Woo Woo, Chul Hyun Cho, Cheol Hwan Kim, Joo Han Oh, Shin Woo Lee, Sang Jin Shin, Sung Min Rhee*		ORB-026	16:17-16:22 Association of Smaller Critical Shoulder Angles with Concomitant Acromioclavicular Symptoms or SLAP Lesions in Patients with Atraumatic Rotator Cuff Tears Long Yi, Rui Yang*
	OTD-003	16:33-16:38 Outcomes of Anatomical Total Shoulder Arthroplasty and Reverse Total Shoulder Arthroplasty (rTSA) for Osteoarthritis with Intact Rotator Cuff - Comparison with rTSA for Cuff Tear Arthropathy – Dong Ho Lee, Dong Ho Lee, Joo Han Oh*, Young Ki Min, Kyu Ho Lee, Jaewon Choi, Hyung Ki Cho, Jae Woo Park, Ankit Amin		ORB-027	16:23-16:28 Acromioplasty Selection Based on Acromial Morphology: A Three-Dimensional Analysis of 106 Computed Tomography Shoulder Scans Long Yi, Rui Yang*
	OTD-004	16:39-16:44 Outcomes of Bilateral Reverse Total Shoulder Arthroplasty - A Retrospective Multicenter Cohort Study - Hyung Ki Cho, Joo Han Oh*, Yong Girl Rhee, Sung Min Rhee, Yang Soo Kim, Sang Jin Shin, Jae Cheol Yoo, Jaewon Choi, Dong Ho Lee		ORB-028	16:29-16:34 Early clinical efficacy evaluation of arthroscopic H-Loop technique for subscapularis repair Yitao Yang, Rui Yang*
	OTD-005	16:45-16:50 Mid-to-Long Term Outcomes of Stemless Anatomic Total Shoulder Arthroplasty Dong Ho Lee, Myung Sun Kim, Sae Hoon Kim, Hyeon Jang Jeong, Jaewon Choi, Hyung Ki Cho, Kyu Ho Lee, Young Ki Min, Sun Ho Lee, Joo Han Oh*		ORB-029	16:34-16:40 Retrospective study on the fixation of the long head tendon of the biceps brachii with equal and low tension in Lark-Loop onlay and exploration of tendon to bone healing Jinming Zhang, Rui Yang*
				ORB-030	16:41-16:46 Artificial biomaterial sheet augmentation with synovia for rotator cuff tears Shin Yokoya*, Yohei Harada, Yasuhiko Sumimoto, Masataka Deie, Nobuo Adachi
